

Capacity Development, Social Safeguard and Land Policy, Land Acquisition and Resettlement Expert

Brief summary of experiences of Mayen Uddin Tazim:

Having Master's degree from the faculty of Social Science from the University of Chittagong and Post-graduation Diploma from the World English Institute, Oregon State University, USA in English and project related international trainings received from abroad, Mayen Tazim obtained about 30 years of experience in working with the different development projects of the Government of Bangladesh dealing with UNDP, World Bank/IDA, DFID-UK, JICA, ADB, CIDA and EEC/EU. He was assigned with the responsibilities for different positions as for example Social Safeguard Resettlement / Participation Expert, Community/Social Development & Livelihood Advisor etc.

Md Mayen Tazim has 30 years' experience working on development projects in water resources management, infrastructure development, climate change, and capacity building of local government institutions in Bangladesh. He was responsible for improving the human capacity, social development, and financial capacity of rural communities to ensure their social protection, and protection from vulnerability during a crisis, especially women's access to resources for their empowerment. Presently, he is working as social safeguards/resettlement specialist on the Coastal Climate Resilient Infrastructure Project and has been selected as a short-term international social safeguards/resettlement specialist for the Road Construction and Rehabilitation of Faizabad Project in Tajikistan & Afghanistan.

In working with the different development projects dealing with the bilateral and multilateral donors / agencies, Tazim had gained expertise in the following areas:

- Social impact assessments
- Land acquisition and resettlement planning
- Land acquisition and resettlement implementation
- Impact assessments on indigenous people
- Preparation of indigenous peoples plan as part of a development project

- Grievance management
- Livelihood restoration
- Community Consultations
